Length 10 ft. | Qty 25

Low profile starter strip.

# Protect every corner of your home with a **Complete Exterior™** by James Hardie

Hardie® Shingle

Hardie® Panel & Hardie® Trim Batten

Hardie® Plank

Hardie® Trim Boards

Hardie® Soffit

With a **Complete Exterior™** by James Hardie, you can bring your dream home to life without having to choose between protection and long-lasting beauty. Using products from a single, trusted manufacturer that offers exceptional warranties, you'll have complete peace of mind, so you can sit back, relax and enjoy your home's exterior.

### ONE MATERIAL

Only Hardie® fiber cement products are **Engineered for Climate®**, resisting damage from fire\*, water, and insects that deliver optimal performance for your home's specific region.

### ONE SOURCE

The #1 brand of siding in North America\*\* that is made in America. With 11 manufacturing sites and nationwide distribution, your product is available when your contractor needs it.

### ONE WARRANTY

Rest easy knowing that all your siding, trim and soffit is backed with a 30-year non-prorated warranty from a single trusted manufacturer. One manufacturer to contact makes your life easier, giving you more time to enjoy your home.

\*Hardie® fiber cement products are noncombustible and/or have a Class A fire rating when tested in accordance with ASTM E84. Fiber cement fire resistance does not extend to applied paints or coatings, which may be damaged or char when exposed to flames. The use of noncombustible siding, combined with other fire mitigation measures, may help harden a home against external fire. \*\* Based on Freedonia 2022 Global Siding (Cladding) demand estimates and James Hardie sales in North America.

Durability and protection you can trust.

# Proudly stands up to the elements.

## Fire

Help prepare your home for the unpredictable with noncombustible\* siding that won't burn or ignite when exposed to a direct flame.

Listed for use in wildfire-prone Wilderness Urban Interface (WUI) zones in the western US.

- Verified noncombustible per ASTM E136
- Will not contribute fuel to a fire
- Class A fire rated per ASTM E84, with a flame spread index / smoke developed index of less than 0/5
- Verified in wall assemblies with 1-hour and 2-hour fire-ratings per ASTM E119

### Cal-Fire Compliant

\*Hardie® siding complies with ASTM E136 as a noncombustible material. Fiber cement fire resistance does not extend to applied paints or coatings, which may be damaged or char when exposed to flames.

Scan to see the durability of Hardie® products.

## Pests

Creatures can wreak havoc on wood-based siding. It can be damaged by woodpeckers, termites and other pests. Hardie® fiber cement holds no appeal for these critters, saving you the maintenance hassle.

## Water

From rain to ice to snow, precipitation patterns can lead to warping, swelling and cracking in wood-based siding. Take shelter from the storm knowing that your siding is built to resist water damage.

- FEMA Class 5 flood damage resistance (highest rating)
- Rated for use in High Velocity Hurricane zones by Miami-Dade County, Florida\*

\*Applies to most products by James Hardie. For full list go to: [www.jameshardie.com/miami-dade-NOA](http://www.jameshardie.com/miami-dade-NOA)

## Time

ColorPlus® Technology finishes provide a durable finish that helps resist fading and discoloration that outperforms field applied paint, so your exterior can keep its good looks longer.

# Hardie™ Zone System

Exterior solutions inspired by nature. And designed to protect your home from it.

Only Hardie® fiber cement exterior products are **Engineered for Climate®**, designed specifically with your climate zone in mind for optimal performance. In the northern USA and Canada, HZ5® products resist shrinking, swelling and cracking even after years of wet or freezing conditions. HZ10® products help protect homes from hot, humid conditions, blistering sun and more.

With Hardie® siding, trim and soffit, your home's exterior will be as tough as it is beautiful.

Quality materials that you can be proud of.

## Unique Formulation Hardie™ Zone Substrate

Not all fiber cement is the same. Hardie™ Zone formulations require raw materials that meet our stringent quality standards. Our unique formulation, combined with innovative product design and manufacturing processes, creates a substrate that is specifically engineered to resist moisture, cracking, shrinking and swelling, for increased durability and workability.

### Proprietary enhancements create durable Hardie® siding

#### PERFECT BALANCE OF STRENGTH AND WORKABILITY

Our unique balance of high-quality Portland cement, sand and cellulose fiber delivers the best combination of strength and workability.

#### ENHANCED MOISTURE RESISTANCE FOR UNMATCHED DURABILITY

Patented and proprietary additives are chemically bonded within the substrate matrix to provide durable moisture resistance.

#### INCREASED DIMENSIONAL STABILITY

Our siding is engineered at the microscopic level to create a fiber cement composite with superior dimensional stability that resist shrinking and splitting.

● James Hardie Manufacturing Plant

11 manufacturing facilities in the United States which source at least 81% of their raw materials locally

### Unmatched investment in manufacturing scale and production innovation

- Largest manufacturer of fiber cement in North America
- Over 7x the North American manufacturing capacity of our nearest fiber cement competitors
- More than 100 process and product quality checks
- Over 85 scientists and engineers in North America's research & development providing dedicated resources for continuous innovation in manufacturing and product development
- More U.S. fiber cement patents than any competitor

\*As of March 2024

# Building a Better Future for All™

## Building a Culture of Sustainability

Throughout our company and across our value chain, sustainability is foundational at James Hardie. Our sustainability goals are integrated into our business operations, governance structure and company culture. We have ambitious targets that align with our purpose of **Building a Better Future for All™**, the issues that matter most to our stakeholders and our overall corporate objectives. From our frontline employees to the builders who use our products, each person plays a role in putting our sustainability initiatives into action.

### BUILDING A FRAMEWORK FOR A BOLD AND BRIGHT FUTURE

**👍 Purpose**

Building a Better Future for All™.

**★ Vision**

To inspire how communities design, build and grow today and tomorrow.

**♥ Mission**

Be the most respected and desired building materials brand in the world.

Scan code to find out more about our sustainability efforts.

Scan for Environmental Product Declaration of Hardie® products.

## ADDING VALUE TO OUR COMMUNITIES

We recognize our ability to impact the communities in which we live and work. While maintaining a global mindset, we put great care into how our business affects local communities. We contribute by sourcing, employing, delivering and giving locally.

## CREATING AN IMPACT

We invest in the local community and aim to locate the plants close to suppliers, customers and potential new employees, as well as sustainable transportation opportunities.

\*Above statistics are the James Hardie impact from fiscal year 2024.

## SETTING AMBITIOUS GOALS AS RESPONSIBLE STEWARDS

- Reducing Scope 1+2 Emission**  
Reduce absolute Scope 1+2 GHG emissions by 42% by 2030 from 2021 baseline and work towards net zero by 2050
- Minimizing Waste**  
Zero manufacturing waste to landfill by 2035
- Recycling Water**  
Recycle an additional 20M cubic feet of water per year by 2030, compared to 2019

Long-lasting  
beauty by design.

## Finishing Technology

### PRIMER

A quality primer is the first step to ensuring that the paint color you select expresses your home's true beauty now – and for years to come. Our distinctive primer is climate tested and engineered to enhance the performance of paint on Hardie® fiber cement exterior solutions. It helps to provide consistent, long-lasting paint adhesion, even in the most demanding conditions.

### COLORPLUS® TECHNOLOGY

Our advanced ColorPlus® Technology finishes deliver the ultimate in aesthetics and performance. Our products aren't simply painted at the factory. Our proprietary coatings are baked onto the board, creating a vibrant, consistent finish that performs better, lasts longer and looks brighter on your home.

### EXCEPTIONAL FINISH ADHESION

Our proprietary coatings are engineered for exceptional adhesion to our substrate and applied to the surface, edges and features for durable performance.

### SUPERIOR COLOR RETENTION

The finish is cured onto boards for a stronger bond, which allows for exceptional resistance to cracking, peeling and chipping.

### SUPERIOR UV RESISTANCE

ColorPlus® Technology finishes retain vibrancy longer compared to vinyl siding and the typical field paints used on other siding products.

## Beauty that's designed to last.

### COLORPLUS® TECHNOLOGY

ColorPlus® Technology finishes are fully cured on our boards in a controlled factory environment and arrive at your home ready for installation year-round. With prefinished color products, you'll have peace of mind, knowing you'll have a more consistent color and finish that doesn't depend on good weather.

With a variety of color options available to help bring your vision to life, ColorPlus® Technology finishes help keep your home looking beautiful longer.

# Unparalleled beauty with unparalleled performance.

## See the James Hardie difference

James Hardie invented modern fiber cement. Over 10 million homes\* later, we continue to set the standard in premium, high-performance exterior cladding. Our products deliver uncompromising durability and finish quality for a beautiful, low maintenance exterior.

Our unrivaled investment in R&D and constant innovations in product design, manufacturing and distribution allow us to remain steps ahead of the competition. With the support of our employees and partners, and with our exceptional warranties, we're committed to helping protect your home and investment every step of the way.

\* Estimate based on James Hardie North American sales and average housing unit size.

# Industry-leading warranty for peace of mind

Protect your home with North America's #1 Brand of Fiber Cement siding, soffit and trim, backed by exceptional limited warranties. Unlike other companies, we don't prorate our James Hardie substrate warranty coverage. All Hardie® fiber cement products come with a transferable 30-year, non-prorated limited substrate warranty, meaning we stand 100% behind Hardie® fiber cement siding, trim and soffit products for 30 years.

ColorPlus® Technology finishes come with a 15-year limited warranty.

## 30-Year, Non-Prorated Siding, Trim and Soffit Substrate Warranty Coverage by James Hardie

\* Based on Freedonia 2022 Global Siding (Cladding) demand projections and James Hardie sales in North America.

# Make your home stand up and stand out.

## Increase your home's re-sale value\*

Re-siding with fiber cement siding is one of the top ways to increase your home's re-sale value.

# Endorsements — a reputation built on trust

For decades, our fiber cement products have been used to create better places to live. That proven track record has earned us the loyalty of millions of homeowners and the endorsements of trusted authorities across the building industry.

Hardie® products are backed by the **Good Housekeeping Seal**.

FOR THE PROS

# Hardie™ Moisture Management Products

Protection that performs at every layer.

No exterior cladding can prevent 100% of water intrusion. Your home should have an additional line of defense. Hardie™ Moisture Management products provide a superior balance of water resistance and breathability, helping to keep the area within the wall drier. This helps prevent moisture accumulation that may lead to mold and mildew growth.

INSTALLATION ADVANTAGES OF HARDIE™ WEATHER BARRIER

- Thicker, more durable material for long-lasting protection from water infiltration
- Superior tear resistance for easier, quicker installation
- Can be installed with staples in place of cap nails for cost savings
- Provides a higher level of performance, no matter what type of cladding you specify

**Hardie™ Weather Barrier**

**Thickness** 11 mil.  
**Length** 100 ft. 100 ft. 150 ft.  
**Width** 3 ft. 9 ft. 9 ft.

**Hardie™ Flex Flashing**

## Installation Done Right

INSTALLATION ACCESSORIES

**Hardie™ Blade Saw Blades**

Manufactured by Diablo, the Hardie™ Blade saw blade is designed specifically to cut fiber cement products and is the only saw blade James Hardie recommends. The blade creates clean, precise cuts while helping to reduce the amount of airborne dust produced.

**PacTool® Gecko Gauge**

The PacTool® Gecko Gauge is designed to improve the installation experience, allowing one person to hang Hardie® lap siding during installation. The manufacturer claims the Gecko Gauge can improve the speed of solo installation by up to 30%.

## Finishing Touches

COLORPLUS® TECHNOLOGY ACCESSORIES

**Touch-Up Kits for ColorPlus® Technology finishes**

Specially formulated to match ColorPlus® Technology finishes, our touch-up kits offer resistance to aging, color change and chalking. Estimated one kit per 4,000 sq ft of siding or 1,600 sq ft of trim.

**Color-Matched Caulk**

OSI® QUAD® MAX sealant offers a high-performance sealant solution to color match Statement Collection® products.\* About 18–20 linear feet per tube. Refer to packaging for manufacturer's recommendations.

\*For matching Dream Collection® products, contact your local James Hardie representative.

TRIM ACCESSORIES

**Flat Tabs**

Eliminate face nails and improve the aesthetic of trim applications around windows, doors and band boards.

**Corner Tabs**

Use corner tabs to eliminate face nail holes that would detract from the finished look of corner trim installations.

Scan code to view install and technical documents.
